WORK EXPERIENCE

Associate Application Developer ADP

06/2019 - Present

Roseland, NJ

Achievements/Tasks

- Deploy and Monitor container builds of our application for several lower testing and upper production environments with Jenkins using Kubernetes containers.
- Write, Manage, and Edit Cassandra NoSQL and Oracle SQL Database Queries for several testing and production environments to maintain consistent and clean data with TablePlus and NodeJs.
- Follow Agile methodology to coordinate and plan sprints with the Development and Quality Assurance teams across the US and India.
- Work with Quality Assurance and Development teams to design User Experience and develop UI components for our File Transfer application using AdobeXD, AngularJS, TypeScript, and Bootstrap frameworks.
- Manage and Organize data received from backend REST API calls to IBM's Sterling File Gateway and PEM Partner Repository products with NodeJS & ExpressJS to send data to the application's Frontend.

Application & Software Development Intern Colgate-Palmolive

01/2019 - 06/2019

Piscataway, NJ

Achievements/Tasks

- Created a POC for Colgate's in-house management of its Smart Label ingredient display to eliminate the need of a third-party vendor.
- Utilized the Adobe CMS, Adobe Experience Manager, to create UI templates and design with custom CSS and Javascript to ensure compliance with Smart Label design standards.
- Deployed project into production by helping create product detail pages for over 300+ products with the template I created.

Tableau

PROJECTS

CAPSTONE PROJECT: Pullup Technologies (01/2019 - 05/2019)

- Created mock ups for the redesign of the website's UI using Sketch, Invision, GIMP and Adobe Photoshop based on project sponsor feedback.
- Utilized SquareSpace to implement website changes with custom CSS and Javascript.
- Functioned as a content creator by creating video and photo content and managed them with Adobe Photoshop, Adobe Light Room, GIMP, and Hit Film to create and post social media content to build user interactions with the application.
